Student's Letter (Excerpt):

Dear you host family,

My name is Amelia and I am 16 years old. I live in a small town in Germany together with my parents. I am the youngest of four children (two brothers and one sister) but they all already moved out. My family is very important to me because we always stick together and I know that I can always count on them, which not only includes my parents and siblings, but also for example my two cousins who are the same age as I am in whom I have a great relationship with, too.

Whenever desired I help with the upkeep of the household. For example I do the dishes, clean the bathroom or sometimes cook easy dinners for my family. I also frequently have to clean my room because I own two budgies who don't care if I just cleaned my room five minutes ago. We also owned a cat and I sometimes walk our neighbors dog. So I wouldn't mind if you have any pets.

In my free time I like to go shopping, reading books and going to the cinema. I really enjoy hanging out with my friends, but I also appreciate having time for myself. Since childhood I have been playing the violin and also some piano. I also sing in my school choir. What I like even more than music a sport, especially volleyball but in general I like almost every sport.

Reasons for me to spend one year in a foreign country or curiosity for a new culture and how to live in a second family. I want to break out of my usual life at home to see and learn about a new, different things and of course, to improve on my English too. I chose the USA because I always wanted to go there and I am so excited to experience your way of life and your school system. I have much support from my friends and family.

I hope that I could give you a good impression of my life with this and I would really enjoy it if you look at me like another daughter. I would be very glad to become a part of your family.

Yours sincerely, Amelie
