Age as of August 15th: 17 **Willing to live with pets:** OK

Able to live with smokers: Yes, but only if they smoke outside

Allergies: No

Special Dietary Restrictions: No

Student's Letter (Excerpt):

Dear Host family,

I am 16, funny but at the same time relaxed. I like my own space, mainly when I study and do homework. I like to have everything in its place and love going to new places and doing things on my free time, like sports or going out with my friends. I live with my mother, father and older brother, 27. We have a good relationship especially with my mother, we have a special bond.

I go to a Catholic school. I get along very well with my teachers and classmates. I am a good and responsible student with my school work. My school programs social service for us every year. Right now I am helping at a shelter for children, I go there every week. I enjoy taking care of them and giving them love.

My favorite activities are playing soccer and exercising. Another leisure activity I like is drawing. I really enjoy it.

I have no plans for university yet. I would like to study Chemistry or Medicine. Let's see if being an exchange student changes my mind. I would like to apply for a scholarship to study abroad so I would be better prepared.

I hope to become an exchange student because besides improving my English, it would be the way to see the world, I would experience a new culture which would teach me many things, a new way of life, its culture and its educational system. I am very excited about participating in an exchange program because I feel it is a great life experience, so that I will broaden my horizons and get to see a more developed place.

Thanks for giving me this opportunity, for opening your country, community and home. I love the idea of sharing experiences with you. I am sure we will have so much fun learning about each other.
