Special Dietary Restrictions: Avoid milk and derivatives

Student's Letter (Excerpt):

My name is Cristina, I am 14 years old and in May, I will be 15 years old. This year I am studying 3th of ESO at the School which is equivalent to the 9th grade of the High School. I have a brother who is 11 years old, my mother is a nurse and my father is a policeman.

I am cheerful and fun. I love meeting new people, at first I am somewhat shy, but I assure myself that I open. I have good character, I am calm and I do not get angry. 2 years ago I went every Saturday to the scouts to spend time with friends, once every two months we went to shelter and in summer we went camping for 2 weeks.

I love stay with my family and do family meals. Most of the weekends I go to my grandmother's house with my cousin to spend the weekend and to keep my grandmother company.

I help a lot in the tasks of the house and when my parents are not I task to make dinner to my brother. I love cooking with my mother because that's how she teaches me. My favorite foods are pasta, pizza, paella and potato omelette.

I love meeting new places and learning new ways of living to mine and my family and I also like to meet new friends with whom to share unforgettable moments.

I love doing sports because it has taught me to share and help others, my main sport is athletics, surfing in the summer and skiing in the winter, but I also do paddle with my father and basketball with my brother. My hobbies are meet friends, listen to music, play sports, watch series and be with my family.

I am delighted with this experience and for sharing your life and culture with an American family.
