**Student's Letter (Excerpt):**

Dear host family,

I can not believe I'm writing this letter!

Since I was a child, I dream of my year abroad, and now everything is becoming real.

my name is Giorgia. I am a girl of sixteen who lives in a small neighborhood between the sea and the city center.

I live with my parents, my brother and my dog ??in a beautiful house. My father works as an engineer and my mother is an employee in an American company. My brother is younger than me and is 12 years old while my dog ??is 7 years old. My family is strong and simple, just like I like it.

In my family, the person I trust most is my mother. She always listens to me and knows what to say at the right time.

My passions are painting and photography. I really like music, traveling and everything related to art.

In my free time I'm with my family and around with my friends.

My school is small but very pretty. There we all know each other and do many activities together. I attend the art school. I am specialized in design. I design furniture and furniture in 3D on the computer every month.

I am a very quiet girl, very positive and always happy. I make friends easily and I'm responsible for everything I do.

This year abroad I will need to improve my English and get to know a new culture and history.

I hope to return home after a year more mature and happy than before, with a wonderful experience behind me. I

have three thousand expectations and I am super happy.

During my year, I would like to feel part of a new family and have fun with them doing things together.

I want to say thank you to anyone who chooses me. Thank you because your family will realize my dream and it will be for a lifetime.

I'm super curious to meet you.

See you soon

Giorgia
