Student's Letter (Excerpt):

Dear host family,
 my name is Giulia and I'm 15 years old.
 I'm looking forward to having this experience that will help me meet many wonderful people and improve my English and above all live like a real American girl.
 What about my original family?
 My mum is an engineer; my dad is an agent and my big brother attends my own high school, he is 18 year old.
 We are a very attached family and we have an amazing relationship. I spend a lot of my time with my brother, we have a lot of fun together and sometimes we tell each other our personal facts and we give so many tips. For this reason, I hope to have brothers or sisters in my new family.
 We all live in a small city in the center of Italy on the east coast. I really like living here because it's so quiet. Then, there is the seaside where I spend a lot of time in the summer.
 In winter instead I go to the cinema very often or, during the Christmas season, my city puts a skating rink in the square and me and my friends go skating together. Also in the autumn there is the party of my town, where there are many stalls and concerts, I like it because it is very addictive.
 I attend the scientific high school, I really like subjects like mathematics, physics and science.
 This year, I'm particularly busy with the school because I attend afternoon courses: the PET for the English exam and psychology.
 I'm an open-minded and curious girl who loves traveling to discover new places, acquire new knowledge about different countries and realities different from mine.
 I think there is always something to learn from the others, so after this journey, I know I will be different and richer thanks to you and to everyone I'll meet there.
 I also love travelling in fact my family and I are used to spending our holidays visiting towns usually in Italy or Europe. In the last few years we have had a wonderful trip along Poland, Estonia, Lithuania, Latvia and even one day in Helsinki.
 The trips that I remember most are those in Paris and Amsterdam where I visited the Eiffel tower, the Louvre museum and the Van Gogh museum. I have always traveled a lot and I hope to do it again and again.
 As for as sport is concerned, I practised artistic gymnastics, ballet and swimming, but now I have little time, so I'm only training in a fitness centre twice a week.
 Sometimes, during the winter I go skiing with my family or my school in the north of Italy, it's really enjoyable. Music is another of my passions: I usually listen to Italian music and I enjoy singing a lot even I'm not so good at it. I like watching movies and American TV series, I often try to watch them in English so that I can improve it.....
