 4. Photography

Age as of August 15th: 15 **Willing to live with pets:** OK

Able to live with smokers: Yes, but only if they smoke outside

Allergies: No

Special Dietary Restrictions: No

What makes you unique:

Student's Letter (Excerpt):

Hi,

My name is Julia, I live in Spain with my parents, my brother and my sister. I'm 15 years old and I'm studying year 10.

I love travelling, making new friends and living new experiences, also one of my dreams is to go to the United States.

I'm a very cooperative girl, every year in the school, we create a small cooperative with our classmates and at the end of the year we make a charity market selling all the stuff we had produced throughout the year and all the benefices are for the NGO we chose.

I'm responsible and I'm usually cheerful. When I don't know someone I'm a little shy but then I relax.

I have a busy life; Everyday after my lessons I play volleyball or I practice track and field, then I return home and make my homeworks, on the weekends at Saturday morning I play a volleyball match, in the afternoons I usually meet my friends and at Sunday morning I usually have a race and then I dedicate myself to school stuff, my family and cleaning my room.

I have a small dog called Loli she is very special for me, also I play piano and a little the transverse flute but I prefer sports, I like cooking all kinds of food, but especially desserts like cakes or crepes

For me, a very important part of my life are my friends because they support me and help me, I spend a lot of time with them in the school and I laugh a lot.

It catches my attention different cultures and what are their customs, I'm very curious. I think what defines me the most is that I'm multifaceted I like sports, instruments, technology, the beach, cooking, animals...

I'm very excited about to go to study in the United States for a year, I wanted to thank you for volunteering and I really want to learn new things and make an unforgettable year I'm sure that both won't regret of this experience.
