Age as of August 15th: 18 **Willing to live with pets:** Yes

Able to live with smokers: Yes

Allergies: No

Special Dietary Restrictions: No

What makes you unique:

Student's Letter (Excerpt):

Dear host Family

Hi, I'm an exchange student. I am 17 years old and I was born in Italy. I am a very respectful, cheerful and open guy. I adapt very easily and I like being in company, laughing and joking and making new friends. With family and friends are always available.

With friends I like going out and doing activities, or watching movies. I always like to visit new places and try new experiences, I'm a sporty and practical boy playing basketball, but I like to see other sports too.

There are four of us in the family: me, my older sister who is 20 years old, my mother, who is a housewife and takes care of us boys, and my father who works in a plastic molding factory. We live in a town where there are not many entertainments but we live very well and there are many young people.

I attend a scientific high school in another town near mine, and to get there I take the bus every morning. My school isn't very big, in fact we are 300|400 students. My favourite subjects are Mathematics, Physics and Science, but I'm also interested in other subjects.

I have chosen the USA as an annual exchange because since I was a child I have always liked the costumes and traditions of this state, but also the sports that are practiced especially basketball. In fact one of my dreams is going to see a NBA game. I'm also fascinated by the life of both large and small cities. But also by the organization of your school. I would also like to try to live a new life and school experience that will remain with me forever. One of my main goals is to learn the language well, and after school, enrol at university. And surely this experience will help me understand what to choose and do for the future.

Thanks for the hospitality
