Age as of August 15th: 16

Willing to live with pets: OK

Able to live with smokers: No

Allergies: No

Special Dietary Restrictions: No

What makes you unique:

Student's Letter (Excerpt):

Dear My Future Host Family

Hi my name is KK and I am going to tell you about myself to let you know more about me. There are five members in my family which are my mom, my dad and my two older brothers. My first brother is 20 years old, now he is studying in the UK university he is pretty smart and good at engineering my second brother is 16 years old we are twins the same age as me and the reason that I state him as a brother because I was born after him 2 minutes we studied in the same school actually I used to be in the private girl school then I just transfer from this school to the coeducation school. I got a lot of experience when moving to the coeducation school.

My life at school are great I have a lots of fun going to school and I wishes that I will have fun going to study in the American high school which I love seeing it in the movies that I usually watched. I did most of the school activities there was a school musical and I took part in it. I've got an opportunity to join the musical so my school have two program which are The normal section and the english section I was in the english section. So I will tell how my school musical works the first show that started will be the dance from the 7th- 9th grade students then there will be roleplay from the english section and next the dance from the 10th grade through the 12th grade and finally the shows end with the roleplay from the thai section. I took part in the dance it's worth than an experience to me I've got to know lots of people and lots of new friends I've got to see how each systems works and how to work with others people. When the shows end I felt quite sad that I don't have to practice for the show anymore but I still look at the pictures that are taken from the shows so it's make me felt better like the shows are still with me all the time.

This activities shows me to prepare how to work in the adult world this is like going to be in my memory forever.

Now let's talk about my personalities since I was young I remember that I was a little bit shy and quiet to strangers but when I got a chance to talk with them and felt closer I started to talk a lot like nonstop and now on I think that I am les shy to strangers now and I think that I am quite friendly too. My hobbies are watching movies and shopping I really like watching American high school movies.

Finally, I thank you so much for accepting me to be a part of your household. This exchange program will be a great experience of my life and I do hope we'll share the special moments and do all good things together.

Yours Sincerely,
