Student's Letter (Excerpt):

Dear host family,

My name is Ane and I am a Spanish student of 15 years old eager to meet you. I am very excited about this new experience and I want to thank you for hosting me in your house and let me live this amazing experience. I have a father, a mother, a brother and I have a dog called Maritxu and I like to play with her, I also have a little cousin that is so important for me and I like to play with her as well . I am a little shy but as time passes I'll take confidence and I become very talkative, I am also very cheerful and sensible and as I am very responsible I will help you in everything you need. I am very hard-working and very fit and that is why I have many hobbies. I love playing basketball, I play in a team, every saturday I have matches and I consider myself good at it, when I go I hope to do many activities because I love sports and doing new things. I also love dancing hip-hop because when I dance I feel free, once a year we do a dance performance and I think that it is the best time of all year. I play the piano at the school of music and we also do music performance and I have a great time with the music. I am very excited to learn your traditions and cultures, I really want to see the difference between my country and yours and just as you teach me many things, I also hope that you will learn something about me and our culture and I will do everything possible to show you our traditions and similarities. When I grow up I want to be a lawyer and the truth is that my dream would be to learn in a university in the United States and start working there and live there also and this experience will help me to make a dream come true, this will be an experience that I will never forget and that I will always thank you because thanks to you I'm going to be able to live it.

Thank you,
Ane
