Willing to live with pets: OK

Able to live with smokers: No

Allergies: No

Special Dietary Restrictions: No

What makes you unique:

Student's Letter (Excerpt):

My name is Giovanna, I am 15 years old brazilian girl. I live with my mother in an beautiful island. This place has over to 85% of its territory preserved and exhibits a great Rain Forest, with about 365 waterfalls and animals. Here we have many beaches 65 waterfalls, I have lived here since I was born.

My parents are divorced and I do not have siblings. My mother is a pedagogue and my father is a master in geology and he works in a oil company. My parents are friends although they are no longer together.

I live in a three bedroom house, two bathrooms, a kitchen, a large living room and in the outdoor area we have a barbecue and pool, in the back of my house there is an apartment with a bedroom, a kitchen and a bathroom.

I have three puppies and a turtle. I love animals and I plan to be a vet.

I study at a private school and at my school I learned from a young age to have a healthy diet and preserve the environment. I have been studying at this school since I was 1 year and 11 months. My favorite subjects at school are: English, history, geography, chemistry and performing arts.

I have already traveled to several places among them: USA, France, England, Argentina, Chile and Uruguay. I also travel frequently to visit my grandparents ,they have a house in a mountain town, I like to go there in the winter.

In the exchange I would like to have a family with brothers and animals.

I like cities both on the coast and in the mountains.

I really like to hang out with my friends, we usually go out to eat something or go to a concert, I love to travel and to enjoy the winter time in the trips that I do, I like to take photos, dance, also I really like to enjoy plays at my school.

I have enjoyed when I was able to visit places that had real winter with snow. I would like to learn some snow sports.

Giovanna
