Age as of August 15th: 15

Willing to live with pets: OK

Able to live with smokers: Yes

Allergies: No

Special Dietary Restrictions: No

What makes you unique:

Student's Letter (Excerpt):

Dear American family,

Firstly, I have to say thanks!! because thanks to you I could make a dream come true: studying one year in USA!! My cousin Juan is now spending a year in the US and he is telling me great things and the incredible time he is having. I can't wait!!

I can imagine is not an easy decision to accept in your family a new member who you don't know. But don't worry, I am very motivated and excited about the experience so I will give my best every day!!

It will not be my first time spending time far from my family, I've been many times in camps in which I have met lots of people who I didn't know before....I'm a flexible and adaptable guy in that situations and am so excited about meeting you as my American family and making new friends at high school.

Let me tell you something about me. I am a happy guy and normally I am smiling (my mother always tells me I was born with a smiling face), I am a big guy and big-hearted too!

I have two brothers older than me. My father is a Marketing professional and works as a freelance helping some companies with the Marketing and is also a teacher in some Business Schools. My mother works in the Business Operations area.

I am a very familiar person but also very autonomous, I am ready to collaborate with the house things like doing laundry, dishes and cooking some easy recipes. As the youngest son I am quite mature!!

I love sports!! I practice soccer at school and I am part of the team, we play through the year in a Madrid schools' competition. I also like playing golf, boxing and tennis.

I would like to show you some things about Spanish culture, I can also help with Spanish homework at school and take care of pets or if needed I can be the babysitter of your younger children. I would like to help in anything you
